# Dan Wesson 2,5" pellet revolver

Compact and stylish. This 2.5" silver plated revolver licensed by Dan Wesson, offers realistic shooting fun in a handy size. It has authentic markings and an individual serial number stamped into the frame. The revolver features a double action trigger system and adjustable rear sight for extra realism and accuracy. The Dan Wesson revolver is made of metal except for the ergonomic grip constructed in hard ABS plastic.

The 12g CO<sub>2</sub> / Air cartridge is stored in the grip and is easily accessed by sliding the grip back – easy-load style.

Each of the 6 cartridges holds one BB and is placed in the metal cylinder that rotates as each round is fired. The revolver comes with speed loader, attachable tactical rail and 6 cartridges.

Speed loader included

## Box of 12 pellet CNC cartridges

These cartridges are made from steel and polished brass with Dan Wesson engraved at the base. The weight, feel and look of these are as close to real .357 hollow point revolver cartridges as you can get. Each holds one 4.5mm pellet and the large gas conduit allows more gas to pass thru increasing muzzle velocity

## CZ P-09 – DT-FDE Blowback

- **Blowback**
- **3-Dot sights**
- **Rifled barrel**
- **Accessory rail**
- **Ambidextrous safety**

### Realism Precision Performance

The CZ P-09 is a full-size tactical pistol with an integrated rail for mounting light and/or laser. Manufactured under license from CZ this airgun is designed from the original specs resulting in a realistic look and handling. Its blowback function makes the metal slide move with every shot fired, creating strong recoil, adding to the shooting experience.

The CZ P-09 features a rifled inner barrel allowing the use of pellets, this improves range and precision. Add to this a 3-dot sight system that gives the operator a quick and easy target acquisition.

Every pistol comes with its own unique number and authentic CZ markings. A barrel extension tube can easily be threaded on by removing the front caps. (ref. 15924 and 15925)

The CZ P-09 is one of a new generation of airguns capable of firing flat-head pellets from an ingenious stick magazine with a 2x8 capacity. It is powered by a 12g CO<sub>2</sub> cartridge for reliable and consistent performance, coupled with a comfortable ergonomic design, this airgun will deliver a quality experience.

and steel/plastic BBs**

## CZ P-09

The CZ P-09 is a full-size version of the popular P-07 compact pistol from CZ. The CZ P-09 has a rifled barrel which makes it even more precise. It is capable of using both BBs and pellet, making it a very versatile Airgun.

Having access to CZ designs allows for the replicas to be produced as close to the real thing as possible. The CZ P-09 has been designed for use by law enforcement and armed services, and has therefore undergone rigorous stress tests, where the firearm has impressed

with its reliability and accuracy. When designing the polymer frame for the CZ P-09, the decision was made to retain the basic grip shape (circumference, angle, etc.) so popular with the CZ 75 family of handguns.

## CZ SP-01 Shadow – Non blowback

This exciting new airgun is based on the the new generation of CZ 75 SP-01 pistols, that have been created based on input from Law Enforcement, Military and Police communities worldwide, and with additional input from the Team CZ world premier shooters Angus Hobdell and Adam Tyc. The pistol frame which comes from a new mold incorporates alterations such as recess beneath the trigger guard and beavertail to enable a higher grip of the handgun. Sights consisting of fiber optics front sight and rear sight to promote much easier, faster and more accurate target acquisition.

Adam Tyc, member of the CZ Shooting Team achieved using the SP-01, at the IPSC shooting events (Production Division) title of the World Champion (2005, 2008), European Champion (2007) and he is also winner of AustralAsian Games (2004, 2007).

### Features:

The design is based on the proven CZ 75 line of pistols. MIL-STD-1913 accessory rails for fitting tactical lights and lasers. The front of the trigger guard is provided with serrations and the front strap is also serrated for better grip. Checkered rubber grip panels

- Accessory rail
- Non-blowback
- Barrel threaded for barrel extension tube

# CZ 75 – Blowback

- Empty mag slide lock
- Heavy weight
- Full metal
- CO<sub>2</sub> powered

The CZ 75 has long been known for its superior ergonomics. This fully licensed 4.5mm Airgun is an accurate replica in both form and function, it sits perfectly in the hand and its realistic blowback action powered by CO<sub>2</sub> / Air, will provide hours of shooting fun. Full metal construction, just like the real gun all outer components are made of metal, which ensures a solid pistol with an ultra-realistic appearance.

The internal mechanisms have been designed to be simple, durable and reliable, and the chrome metal outer barrel adds an attractive contrast to this CZ 75.

- Adjustable rear sight
- Comfortable rubber grip

The classy Dan Wesson Model 715 double-action revolver is back in production. This highly accurate DW 715 6" Airgun replica features all the details that you find on the real firearm. From the one-piece 6-inch heavy barrel complete with vent rib with threading for attaching a rail shroud for mounting optics and lights or laser, to the Hogue replica rubber grip.

The grip shell has an ingenious integrated tool for tightening the CO<sub>2</sub> cartridge that powers this revolver. Even the forward cylinder latch and the clockwise rotation of the cylinder on the real firearm have been faithfully replicated (Rail not included in package).

## **Dan Wesson 2,5" Revolver**

Eye-catching and compact, this Airgun is a must have for all wanna-be gangsta rappers, and people who just like being noticed. This 2.5" Gold Airgun revolver licensed by Dan Wesson, offers realistic shooting fun in a handy size. It has authentic markings and an individual serial number stamped into the frame. The revolver features a double action trigger system and adjustable rear sight for extra realism and accuracy.

The Dan Wesson revolver is made of metal except for the ergonomic grip constructed in hard ABS plastic. The 12g CO<sub>2</sub> / Air cartridge is stored in the grip and is easily accessed by sliding the grip back – easyload style. Each of the 6 cartridges holds one 4.5mm BB and is placed in the metal cylinder that rotates as each round is fired. The revolver comes with speed loader, attachable tactical rail and 6 cartridges.

*CNC upgrade cartridges shown in image are not included in package.*

# BERSA™

## Bersa BP9CC – Non blowback

This BP9CC is a semi-automatic non-blowback 4.5 mm Airgun fully licensed by BERSA®. It is a lightweight, compact, ultra thin handgun, with a ergonomic design that improves line of-sight. It is powered by a 12g CO<sub>2</sub> / Air cartridge stored in the grip using the easy-load system and the BB's are put in a removable stick magazine. An integrated picatinny rail allows for mounting of lasers or tactical lights. The grip and metal slide carries authentic BERSA® markings and every gun comes with unique serial number.

The BP9CC (Concealed Carry) is the first polymer frame handgun from BERSA® the Argentinian firearms manufacturer, known world-wide for producing reliable, affordable handguns. Since 1958, BERSA® has been manufacturing accurate, reliable, and robust handguns, utilizing advanced firearms technologies paired with a history of innovation. The Argentinean Military, as well as law enforcement officials around the world, have routinely issued and relied on BERSA® handguns as their official sidearm. BERSA® is currently one of the largest privately owned corporations in Argentina.

## STI Duty One – Non blowback

The DUTY ONE is fully licensed by the famous high-end small arms manufacturer STI International, based in Texas, USA. The 4.5mm (.177) steel BB's are stored in the drop-out magazine and powered by a 12g CO<sub>2</sub> / Air cartridge which is cleverly kept away in the pistol grip thanks to the easy-load system.

The airgun is semi automatic and based on the classic model 1911 but STI has upgraded and changed the design and many of the functions. The frame has an intergrated front weaver rail for mounting

light and laser. The grip is marked with an STI logo and the high rise beavertail grip, secures a perfect hold on the pistol. Furthermore the pistol has unique serial number.

The metal slide has beautiful authentic STI markings and you have two options to choose from – a non-Blowback and a Blowback version. Blowback is a term used when the slide cycles back and forth when a shot is fired. This gives a more realistic feeling and a sense of recoil.

- Barrel threaded for barrel extension tube
- Non-blowback

# STEYR M9-A1

A semi automatic airgun version of the latest Steyr Mannlicher pistol – the M9-A1. This Airgun comes in two versions – a Dual tone metal slide and an all black polymer slide. Both with authentic markings. The ergonomic grip has been designed in a 111 degree angle to improve ergonomics.

Rear fiber optic sight and waiver accessory rail makes this pistol very comfortable and with the opportunity to mount laser and flashlight. The 19 BBs are stored in the drop-out magazine and the 12g CO<sub>2</sub> / Air cartridge is placed in the easy-load grip and is easily changed.

## X9 Classic– Blowback

The X9 is a full-size Airgun pistol with a classic design. The X9 is a high quality built Airgun that features a hard blowback function that makes the Airgun look and handle just like the real thing.

The realistic Blowback function makes the slide move back and load a new 4.5 steel BB into the chamber, thus adding a more realistic shooting experience. The slide locks back on the last shot, requiring you to manipulate the slide lock or the slide itself when inserting a full magazine. The magazine holds 16 4.5 steel BBs.

The texturized grip allows for better pistol control and target acquisition. Every pistol comes with its own unique serial number.

It is powered by a 12g CO<sub>2</sub> cartridge for reliable and consistent performance, coupled with a comfortable ergonomic design, this airgun will deliver a quality experience.

### **Shoulder holster, STI,CZ,STEYR, BERSA**

Shoulder holster with mag pouch. Padded mesh shoulder panels allows the body to breathe for maximum comfort. Size is fully adjustable allowing you to wear the holster concealed or overtly. This holster can quickly be changed for either left or right handed players. Retention strap with push button snaps open for a fast draw. A additional safety strap keeps the gun securely in the holster during the most rigorous activities.

Black      Ref. 11965

### **Shoulder holster, Dan Wesson revolvers**

Designed especially for all Dan Wesson Revolvers. Shoulder holster for revolvers with 2 speed loader pouches. Size is fully adjustable allowing you to wear the holster concealed or overt. This holster can quickly be changed for either left or right handed players. Retention strap with push button snaps open for a fast draw. An additional safety strap keeps the gun securely in the holster during the most rigorous activities.

Black      Ref. 16494

### **Dan Wesson handgun carry bag**

Stylish carry bag designed especially for the Dan Wesson 715. (Will however fit most handguns even with optical sights). The convenient double zipper opens to reveal a surprisingly roomy bag with a separate padded compartment with Velcro closure, for storing the handgun and elastic loops for holding six speed-loaders or magazines. Furthermore, there are three mesh pockets for holding targets and ammunition

Ref. 18432

# Gun cases & carry bags

Protect your gun in transport and storage, with a STRIKE SYSTEMS® padded weapon case. Constructed from abrasion and water resistant nylon, padded with closed cell foam which absorbs shock and is resistant to moisture and water. Closed by dual heavy duty nylon zippers, with pull cords.

The STRIKE SYSTEMS® Tactical gear brand also includes carry cases for rifles and pistols, gear bags and backpacks and also plastic boxes and aluminum cases.

## Gun cases – plastic

Protect your gun in transport and storage, with a Strike Systems® padded plastic case. The cases have rugged looks and offer solid protection for Airsoft guns. Made from scratch resistant plastic, and lined with egg crate foam. Slide locks and steel hinge pins for extra durability.

# Scopes & Mount rings

## Scope, 4x20, 11 mm mount

A lightweight entry level scope ideally suited for Air guns with 11mm rail. Comes pre-fitted with mounts.

Ref. 11024

## Scope, 3-9x40, w. high 11 mm mount rings

Ø25, 4x21x11mm

Ref. 18604

## Scope, 4x32, w. high 11 mm mount rings

Ø25, 4x21x11mm

Ref. 18609

## Mount rings, high

Set of 2 high-profile rings each with 2 screws. Intended for mounting on airguns. Fits scopes and dot-sights with a 25.4mm (1 in.) body. Mounts on 11 mm rails. Ø25, 4x20x11 mm

Ref. 18550

## Mount rings

Set of 2 low-profile rings each with 2 screws. Keeps scope or dot-sight close to the rail. Intended for mounting on airguns. Fits scopes and dot-sights with a 25.4mm (1 in.) body. Mounts on 11 mm rails. Ø25, 4x20x11 mm.

Ref. 15070

# Dot sights

## Dot sight, 1x, 20x30 mm, red

Red dot sight with manual on/off button at the rear facing end. The size of the lens is 20-30mm (0,8-1,2 in.) and the total length of the dot sight is 120mm (4,8 in.). The dot sight comes with integrated mount for accessory/weaver rails.

Ref. 15101

## Dot sight, 1x22-33, red

This multi red holo-sight has 4 different dots to chose between and can easily be changed on the rear selector. Each dot selection can be adjusted with 7 different intensity levels. The dot sight has intergrated 21 mm accessory/weaver rail mount that fits most rifles and pistols. The front facing lense is coated with an anti glare reflection. 22 x 33 mm (0.9 x 1.4 in.)

Ref. 15099

## Dot sight, 1x21-17, red

This Low profile dot sight allows either a green or red dot to be projected into the lens. It has 5 levels of variable light brightnes, and has integrated fixed sights as back up. The dot sight has a 21 mm accessory/weaver rail mount that fits most rifles and pistols

Ref. 17129

## Dot sights 1x, red

Classic military styled red dot sight available in two different sizes. 30mm and 40mm indicates the diameter of the objective lens. Both versions has 11 insensitivity settings and the red dot has both windage and elevation adjustment.

## Dot sight, 1x, Ø30, red

Ref. 11096

The front facing lens is Anti-glare reflective coated. The intergrated 21 mm mount allows you to mount the dot sight on standard accessory/weaver rails without any further accessories.

## Dot sight, 1x, Ø40, red

Ref. 11097

# Lights/Lasers

## Universal laser

Compact rail mounted laser. Designed to fit a standard weaver rail, this laser unit will be perfect for the CZ or STI series featuring a rail system. Rugged lightweight construction, slides on easily, and stays tightly locked on with the aid of a retention spring. The laser is fully adjustable for windage and elevation and features an ambidextrous on/off switch that can be activated by the shooting or non-shooting hand. Rail at bottom of laser allows mounting of additional equipment like a tactical light.

Ref. 17184

## Tactical light and laser, red

Combination light/laser, especially suited for pistols. Fits rifles with weaver rail. Operated via tail switch. It is possible to have only light or laser activated. Easy fast detachable mount, allows to quickly mount the light/laser on the handgun when needed.

Ref. 15927

## Tactical light – Super xenon

Super bright tactical flashlight, perfect for pistols with frame rail. The light can quickly be switched on and off on the rear facing switch. The flashlight is supplied with a belt clip, where the light can be held when not mounted on a pistol.

Ref. 16085

## LED flashlight – Multifunction

Multifunction LED flashlight with 3 modes of operation, full power, low power or strobe effect. Can be mounted on most Airguns with rails. Included is 2 special mounts, both lets you quickly click the flashlight on or off. A belt mount that keeps the flashlight on the belt either for transport or to provide hands-free light

Ref. 16927

## Light with switch

3 watt tactical LED light. This compact light is shockproof and waterproof. The light is switched on either with a button or pressure switch. The tactical light fits perfectly under your pistol or on the side of your rifle.

Ref. 16076

## Universal barrel mounted bipod

A slim profile barrel mounted bi-pod with foldable and extendable legs. It mounts quickly on any barrel with a latch and gets tighten in place with a tension screw for a secure tight fit.

Ref. 17475

# Ammunition

ActionSportGames now offers  
3 types of ammunition for our Airguns.

## 4.5 mm steel BB's

These spherical projectiles are intended for use in smooth bore barrels. They are typically used for backyard plinking, close range target practice and general training.

## 4.5 mm Pellets

Intended for use in rifled barrel airguns. Pellets are usually diabolo shaped; making them stable in flight, the thin skirt at the base expands in the barrel to catch the grooves resulting in a stabilizing spin making pellets ideal for long-range accurate target shooting and pest control.

## 4.5 mm plastic BB's

These lightweight plastic projectiles offer an even cheaper and safer alternative to steel BB's, due to the much reduced kinetic energy they impact on their targets. Great for beginners and indoor use.

*We recommend only using the BLASTER BB's from ASG as we cannot guarantee the same high quality and consistency in diameter in other brands of BB's.*

### **BLASTER steel BBs**

These 4.5mm chrome plated steel BB's are for target shooting and casual plinking. Intended for use in smooth bore airguns only. They are delivered in a practical plastic container with a filler nozzle that makes filling the airgun magazines fast and easy.

Weight: 0.35 g,  
Caliber: 4.5 mm/.177

1500 BBs Bottle

**Ref. 15936**

Display box of 20 bottles with 300 BBs

**Ref. 17964**

### **BLASTER 4.5 mm plastic BBs**

New plastic BB's for 4.5mm airguns.

These innovative super light weight BB's are safer to use, due to them hitting the target with much less kinetic energy. And even better is their low price, making shooting much more affordable. Packaged in a sealed plastic container.

Weight: 0.13 g,  
Caliber: 4.5 mm/.177

1000 plastic BBs

**Ref. 17939**

### **Diabolo pellets**

ASGs Diabolo 4.5mm pellets are a basic flat head pellet type made from a clean refined lead, without admixture, which could affect the oxidation. The pellets are clean, free of debris and with a high metal shine. This keeps the shooters hands clean and what is more important prevents debris, which could affect the function of the weapon, from accumulating in the mechanism and barrel. Resulting in a flawless operation and extended lifetime of the weapon.

Weight: 0.47 g,  
Caliber: 4.5 mm/.177

200 pellets

**Ref. 17637**

ULTRAIR®

# CO<sub>2</sub> and Air capsules

## Ultrair® CO<sub>2</sub> cartridges with lubricant

Make cleaning and maintaining your CO<sub>2</sub> gun a breeze. The new lubrication cartridges from ASG can be used in all CO<sub>2</sub> powered Airguns using a 12 g CO<sub>2</sub> cartridge. In addition to the CO<sub>2</sub> gas, the cartridges are also filled with 0.8 g of silicon oil that cleans and lubricates the valve while shooting, and at the same time provides all moving parts of the gun with a layer of oil that lowers friction and wear, resulting in smooth action, consistent accuracy and increased lifespan of all parts

12 g, 5 pcs *Ref. 17425*

## Ultrair® CO<sub>2</sub> cartridges

Each cartridge contains 12 g of CO<sub>2</sub>, used to power all CO<sub>2</sub> powered Airguns.

12 g, 5 pcs *Ref. 15545*

Box of 500 pcs. CO<sub>2</sub> cartridges  
12 g, 500 pcs. *Ref. 16117*

## Air cartridges

HPA capsules (High Pressure Air) are the latest innovation in the airgun industry. Using a container similar in size and shape to a CO<sub>2</sub> capsule, but with a refillable valve, an air pump can be used to refill the capsule again and again, making it very affordable in the long run. Great for the frequent shooter. Using this system also means the capsule pressure can be adjusted making the muzzle velocity in the airgun adjustable.

*Ref. 17947*

## Safety tips

Keep your finger off the trigger until you are ready to fire.

Treat all Airguns as if they are loaded until checked.

Wear appropriate eye and face protection when handling Airguns. (Simple safety glasses may be adequate when target-shooting).

Always use an appropriate carry case when transporting Airguns in public. Be responsible, other people might not recognize a replica gun for what it is.

Always clear the chamber after removing the magazine by firing the gun in a safe direction.

When not using the Airgun, remove the magazine and empty the chamber. Never use any pre-used or damaged BBs and pellets.

Laser sights are only sold in countries where local laws allow them.

Never aim a laser at the eyes of yourself or others.

Always wear safety goggles when using your Airgun.

Do not look directly into the gun barrel.

Never aim or shoot at people or animals. Always set the selector on "safe" position (except when you are ready to shoot a target).

Select a safe place for shooting. Avoid shooting in public places.

Do not disassemble gun yourself. Always contact your local retailer.

## Exclusive worldwide licenses

**CZ Česká Zbrojovka, Czech Republic – [www.czub.cz](http://www.czub.cz)**

CZ is one of the largest manufacturers in the world within the small arms industry. CZ produces famous models like the Scorpion (SKORPION) vz. 61 submachine gun, the CZ 75 handgun and many other weapons for members of special units, aircrews and law enforcement worldwide.
