LEGEND REBORN

IN AIRGUNS

DW715

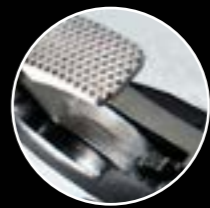

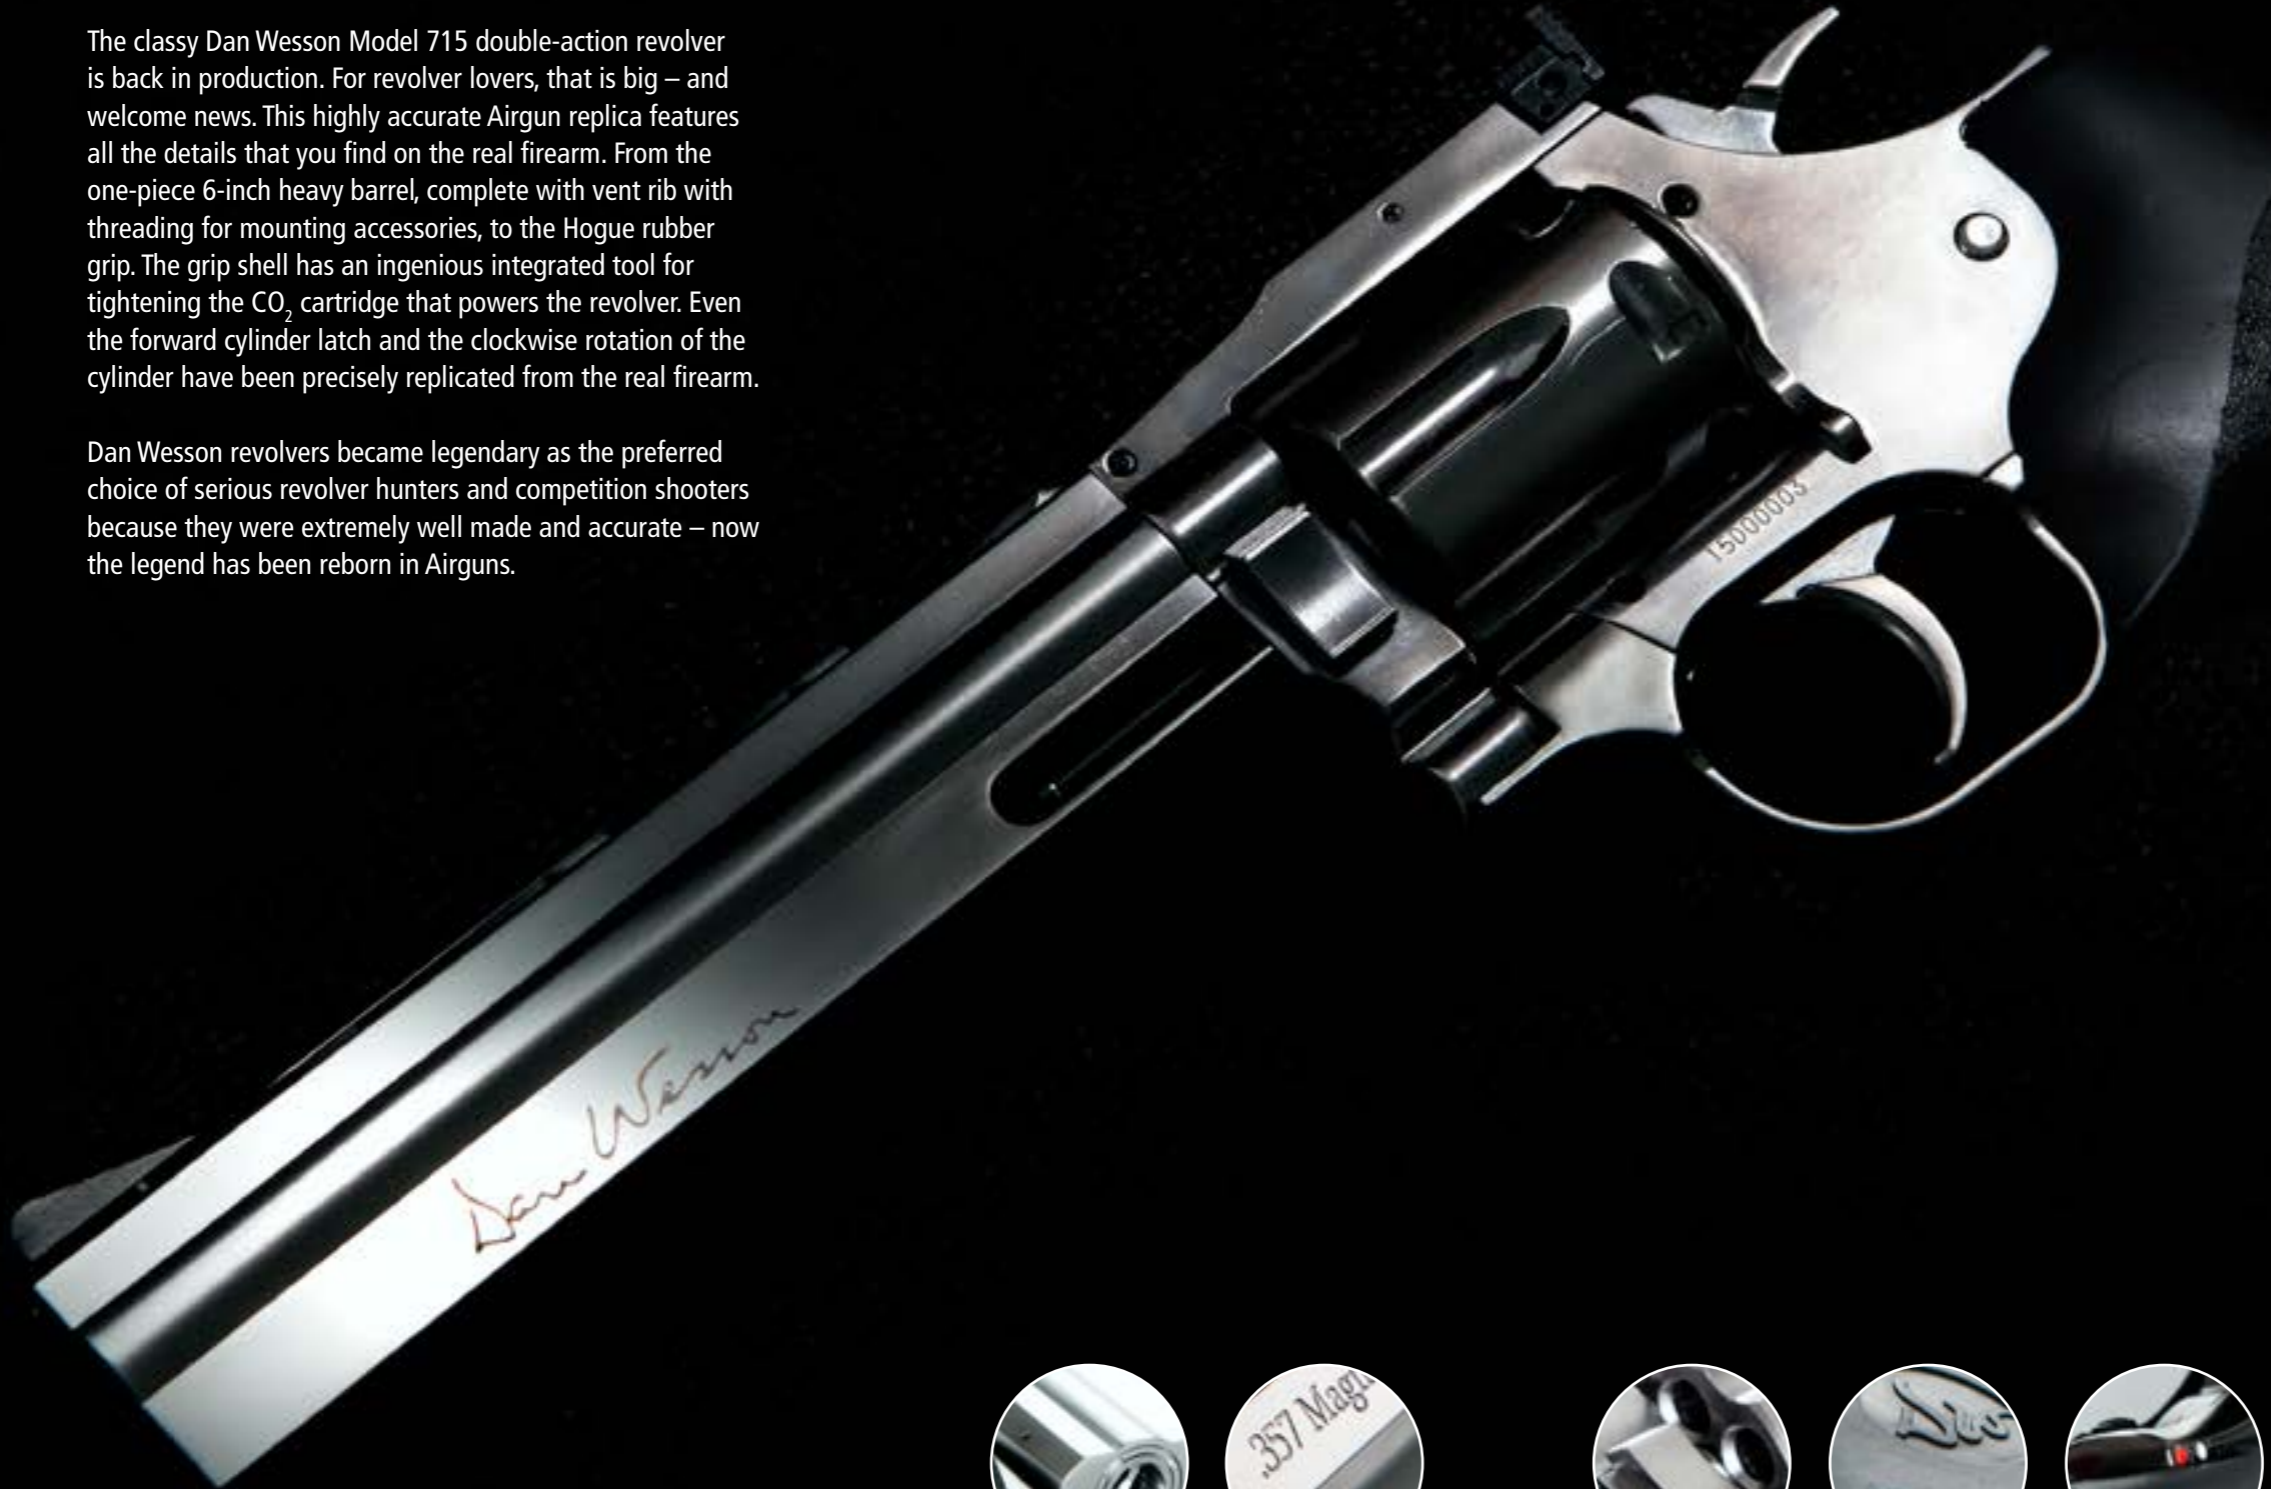

Dan Wesson
DAN WESSON FIREARMS®

DW715

The classy Dan Wesson Model 715 double-action revolver is back in production. For revolver lovers, that is big – and welcome news. This highly accurate Airgun replica features all the details that you find on the real firearm. From the one-piece 6-inch heavy barrel, complete with vent rib with threading for mounting accessories, to the Hogue rubber grip. The grip shell has an ingenious integrated tool for tightening the CO₂ cartridge that powers the revolver. Even the forward cylinder latch and the clockwise rotation of the cylinder have been precisely replicated from the real firearm.

Dan Wesson revolvers became legendary as the preferred choice of serious revolver hunters and competition shooters because they were extremely well made and accurate – now the legend has been reborn in Airguns.

Accessories

DW 715 Custom CNC rail mount

Elegant rail shroud for the Dan Wesson 715 revolver series. Made from extruded aluminum for minimum weight and then CNC machined; this rail attachment fits perfectly on the barrel and screws in place, allowing the shooter to mount optics, lights or lasers for a faster target acquisition and a customized look.

Dan Wesson gun bag

Carry your handgun in style, with this compact yet roomy gun bag. Made from 600D nylon this padded handgun bag has been especially designed for the new Dan Wesson 715 but will fit most other handguns. An integrated padded compartment holds the revolver securely, even with a mounted rail and optic. There are elastic straps to hold 6 speedloaders or magazines, and 3 separate mesh pockets that will hold targets pellets, BBs or other gear.
