Pellet Airgun

CZ P-09 DUTY

Precision Performance Realism

The CZ P-09 DUTY is a full-size tactical pistol with an integrated rail for mounting light and/or laser. Developed by ASG under license from CZ, this airgun is designed from original 3D CAD drawings, resulting in an authentic look and realistic handling. Its blowback function makes the metal slide move with every shot fired, creating strong recoil, adding to the shooting experience.

The CZ P-09 DUTY features a rifled inner barrel allowing the use of pellets, this improves range and precision. Add to this a 3-dot sight system that gives the operator a quick and easy target acquisition. Every pistol comes with its own unique serial number and authentic CZ markings
